

Folding and Packaging Machine

Features

The SPEEDY - T is a folding and semi-automatic packaging machine. This product is indispensable for a fast and uniform folding of T-shirts, sweaters, hoodies and other garments. The blades are interchangeable, very easy to adjust and adapt the fold to the required size, changing in few seconds the set-up from baby t-shirts to extra large sizes. The factors of its success are the reliable fold quality combined with its heavy-duty production capability. It can be adapted to suit all shapes and sizes available on the market.

SPEEDY - T can operate in two ways:

- stacking mode: each folded garment is placed on the stacker, which descends automatically; a photocell indicates when the stack is at its maximum load and stops the machine.
- packaging mode: at the end of each work cycle the garment remains on the last blade, which is lifted up, and it can be easily packed in a bag.

The electronic control device allows the following functions:

- 10 folding programs
- customization of folding programs
- self-diagnostics of anomalies and faults
- production count and report when has reached the preset number of pieces
- hourly production programming with acoustic signal for productions below minimum threshold setting
- language selection (Italian, French, English, Spanish, German)
- reset function

Main Application: Textile Accessory

Stacker Mode with automatic photocell

Packaging Mode with ergonomic lifting blade

easy to use with foot pedal or start button

adapt various blade size to garment requirements

fold XS to XXL, long sleeved, with hoodie

customize on demand folding programs

automatic self diagnostic and production count

| TECHNICAL DATA | Speedy-T |
|----------------------------|------------------------------|
| Electrical Requirements | 230/110V 1P+N+PE 50/60 Hz |
| Air Specification | 50 l/min 6 bar |
| Power Consumption | 230 W |
| Production with packaging | 350 pieces/h |
| Production with stacker | 500 pieces/h |
| Garment Size (min/max)[mm] | 150x180 / 350x400 |
| Footprint Dimension**[mm] | 1500x710 |
| Shipping Weight | 90 kg |
